Fleece Performance Core Charge Policy

A core charge is a refundable deposit for the value of a re-buildable part. On many Fleece Performance products we need to charge a core charge at the time of the sale. Items such as turbochargers, injection pumps, injectors, etc. typically require a core charge.

All cores must be returned to Fleece Performance within 30 days of receipt and have a core return sheet properly filled out. The customer is responsible for all return shipping charges. Please ship all parts to the address listed below.

Upon the receipt of a core, Fleece Performance will determine the condition of the core and refund all, part, or none of the core based on the condition. Any damages or excessive wear may result in a deduction of the core refund.

To receive full core credit the core must be re-buildable and of same make and model year that the product was purchased for. You must also fill out the core return sheet included with your product. If you have any questions regarding our core charge policy, please call our office at 855-839-5040.

Please return all cores within 30 days of receipt to:
