

Fleece Performance Engineering, Inc.  
2400 Commerce Way  
Pittsboro, IN 46167

### **Join the Fleece Performance Engineering Team!**

#### **Who Are We:**

Fleece Performance Engineering is a leading manufacturer of after-market diesel performance products. With a reputation for innovation, quality, and service, our high-performance products push the limits of diesel performance technology. We are seeking motivated individuals who thrive in a rapidly expanding business environment.

#### **What You'll Do:**

This is an On-Site Full-Time Hourly Employment position working as an Electrical Assembly Technician. This position will allow you to have a direct impact on the success of the company.

**Location:** Pittsboro, IN

**Department:** Wiring Harness

#### **The Perks**

- Competitive Salary Package
- Paid Time Off
- Paid Holidays
- Health, Vision, Dental Insurance
- 401k Plan with Employer Match Contributions
- Short-Term & Long-Term Disability Insurance
- Company Paid Life Insurance
- Discretionary Bonus Opportunities if we Crush It!
- On-Site Gym!
- Training Opportunities
- Among other benefits and perks

#### **What You'll Do**

##### **Job Duties Include, but not limited to:**

- Electrical assembly of a broad range of products including:
  - Operation of automatic cut, strip, and crimp machines.
  - Assembly of wiring harnesses using best practices.
  - Hand assembling electronic components onto printed circuit boards and using soldering iron.
  - Electro-mechanical devices and components, subassemblies, wiring, or assemblies as required.
  - Populate, modify or replace components on printed circuit board assemblies.
- Complete visual inspections of both in-process and finished products.
- Work with a team to meet daily production requirements and stringent delivery schedules.
- Read and interpret electrical and mechanical component drawings, diagrams, specifications, and work instructions
- Follow and Adhere to Safety Personal Protective Equipment, Safety Protocols, and ensure a clean and organized workspace
- Assist or support with training as needed
- Performs other duties as assigned
- Represents the company in a professional manner

#### **We are looking for someone who's got the skills and the spark:**

- You are self-motivated and pro-active in completing tasks, seeking out solutions to problems that may be encountered.
- You display a positive attitude towards co-workers, customers, and vendors, able to collaborate and teamwork

- Eye for details is your thing, and you maintain a clean, highly organized, work environment.
- Repetitive tasks don't bother you and you love making things just right.
- You are flexible and overtime or shift adjustments don't bother you to meet business needs
- You have a strong desire to be a part of a rapidly changing organization
- Though not required, you might have experience with electrical production equipment such as cut, strip, and bonus points if you know how to use crimp machines

#### **The Job Scene:**

- As a team we strive for a safe, clean, and organized work environment.
- Work is indoors in a controlled temperature environment!

#### **What it Takes:**

- Employees must wear personal protective equipment (PPE), as required by department or job function
- You're cool sitting, standing or moving around for extended periods up to 8 hours a day.
- You can lift 50 lbs, sit, stand and maneuver for extended periods of time
- You've got exceptional hand-eye coordination and fine motor skills and able to perform fine finger and hand manipulation for up to 8 hours per day
- Bending, reaching, is not an issue to you
