**We are looking for someone who's got the skills and the spark:**

- You are self-motivated and pro-active in completing tasks, seeking out solutions to problems that may be encountered.
- You display a positive attitude towards co-workers, customers, and vendors, able to collaborate and teamwork
- Eye for details is your thing, and you maintain a clean, highly organized, work environment.
- You've got relatable experience, experience with fabrication, manufacturing engine or automobile parts is a plus!
- You are able to use calipers and micrometers.
- Repetitive tasks don't bother you and precision, and you love making things just right.
- You are flexible and overtime or shift adjustments don't bother you to meet business needs
- You're all about precision, timeliness, and come to work with a positive attitude
- You have a strong desire to be a part of a rapidly changing organization

#### **The Job Scene:**

- This position operates in a fabrication environment with exposure to fabrication machine shop fumes, high-pitched noise from machining, and metal particulates
- Work is indoors in a controlled temperature environment! However, your area or areas around you may have potential exposure to different temperatures from fabrication or assembly, and or job related oils and chemicals.

#### **What it Takes:**

- Employees must wear personal protective equipment (PPE), as required by department or job function
- You're cool standing or moving around for extended periods up to 8 hours a day.
- You can lift 50 lbs, stand and maneuver for extended periods of time
- You've got exceptional hand-eye coordination and fine motor skills and able to perform fine finger and hand manipulation for up to 8 hours per day
- Bending, reaching, or working in confined spaces is not an issue to you
- You can hear and respond to machinery sounds or safety alarms in a loud environment.
